*This is a project of the Regional Transportation Authority. The voter-approved, \$2.1 billion RTA plan will be implemented through 2026. Details about the full plan are available at [www.RTAmobility.com](http://www.RTAmobility.com). The Regional Transportation Authority has a nine-member board with representatives from local, state and tribal governments. This project will be managed in partnership by the Arizona Department of Transportation and the Town of Marana.*

## ARIZONA DEPARTMENT OF TRANSPORTATION *Interstate 10 -- Twin Peaks Interchange*

Nov. 11, 2009

For Immediate Release

### **Final Santa Cruz River Bridge girders to be delivered next week**

TUCSON – The final 20 concrete bridge girders for the Santa Cruz River Bridge will be delivered to the Twin Peaks Interchange project construction site Nov. 12 and 13. Each girder is 120 feet long and will require its own transport truck and two pilot vehicles.

Deliveries are scheduled to begin at 5 a.m. on both days with 15-minute intervals between each delivery. Delivery routes are as follows:

- On Thursday, Nov. 12, trucks will be coming from Phoenix using eastbound Interstate 10. Trucks will exit I-10 at Cortaro Road, travel west to Silverbell Road and north to Twin Peaks Road.
- On Friday, Nov. 13, trucks will be coming from Phoenix using eastbound I-10. Trucks will continue their route on eastbound I-10 past the current road closure barricades and travel directly into the construction site.

The Department of Public Safety and Marana Police Department will help direct the trucks along their travel route.

To ensure the safety of children and accommodate bus and student drop-off traffic, trucks will not be allowed to pass through school zones between 8:30 a.m. and 9:30 a.m.

While ADOT strives to inform the public about planned roadway restrictions, during any complex construction project unscheduled closures or restrictions may occur. ADOT appreciates the driving public's patience as it constructs these improvements.
